1996 Spring Session Advance Registration Information Inside

Course Descriptions and Housing Information Enclosed

- Earn valuable CME credits
- Learn from prominent experts
- Network with your colleagues
- Challenge your diagnostic acumen
- Update your skills and techniques and . . . see the sights of Chicago

This outstanding educational event is designed around the scientific program, which has been carefully planned to keep you at the cutting-edge. Lectures, seminars, special presentations, and hands-on workshops highlight new research and treatments for newborns, children, and adolescents.

The Technical Exhibition presents the latest in products, equipment, and services from more than 200 exhibitors.

P.S. – Don’t miss out! Register by March 15, 1996 and save $100 off the on-site registration fee.
