CENTERS FOR DISEASE CONTROL AND PREVENTION (CDC)

CDC in Atlanta, Georgia, invites applications for the following position:

Director, National Vaccine Program Office

The Director, National Vaccine Program Office (NVPO), provides leadership for a national program to develop strategies for achieving optimal prevention of human infectious diseases through immunization; develop strategies for achieving optimal prevention of adverse reactions to vaccines; and ensure coordination and collaboration of vaccine activities within the Federal sector.

Qualifications include outstanding scientific credentials; experience in infectious diseases, immunizations, or a related field; knowledge of vaccine policy; and proven ability to provide scientific leadership for an interdepartmental health program. A doctoral degree (M.D., Ph.D., Sc.D. or other) in microbiology or a related field is desirable. Depending on qualifications, the annual salary range is up to $148,000. Public Health Service Commissioned Corps Officers are also eligible to apply.

Interested applicants may send their curriculum vitae postmarked by June 28, 1996, to Nancy Peterson, Human Resources Management Office, Mailstop K07, Centers for Disease Control and Prevention, 4770 Buford Highway, Atlanta, GA 30341-5724. Tel. (770)488-1785. This is a critical-sensitive position requiring an investigation and drug test for a security clearance.

CDC is an Equal Opportunity Employer and provides a smoke-free work environment.

APRIL 1996

Medical Meetings

Pediatric Infectious Disease Seminar - (Eleventh annual Lloyd Noland), at the Buena Vista Palace, Walt Disney World, Florida, October 16-19, 1996. Call/write: Department/Medical Education, Lloyd Noland Hospital, P.O. Box 538, Fairfield, CA 94534 (205) 783-5276.

Physicians Wanted

California

San Diego - Wellstart International, a non-profit breastfeeding promotion organization, seeks a clinical faculty member for a multidisciplinary service and teaching team. The physician will be responsible for providing clinical services for patients as well as medical consultations for non-physician care providers and teaching in both clinical and non-clinical settings. National / international travel may be necessary from time to time. Candidates must possess a Medical Degree and a California State Medical license and be board eligible/certified in Pediatrics and/or Family Medicine. Minimum three years experience post residency in the provision of clinical pediatric/pediatrician care is required. Strong interest in breastfeeding and lactation, early infant growth, development, and nutrition, and family health promotion. Previous teaching experience is required. Lactation management, international experience, and proficiency in a second language are desirable. Wellstart offers an excellent compensation/benefits package plus liability insurance. For immediate consideration, send CV to: Deborah Ward, Human Resources, Wellstart International, 4062 Fifth Avenue, San Diego, CA 92103-2045 or fax to: (619) 294-7787, Telephone (619) 295-5192. EOE.
"I’d thought nothing could wake our six year old son. But when a urologist recommended the Potty Pager, we decided to give it a try. Three weeks later our son’s bedwetting problems were over!"

Jan Van Hoff

BEDWETTING! Why just "control" it when YOU CAN CURE IT! With the WIRELESS ALARM than alerts THE BEDWETTER... NOT THE WHOLE HOUSE! The Potty Pager teaches bed wetters to respond normally to bladder fullness. It uses a TACTILE ALARM, much like a SILENT BUSINESS PAGER. It IS 100% SAFE, runs on two "AA" BATTERIES, and costs just $49.95 + S&H. It comes with a 30 DAY NO-QUESTIONS GUARANTEE. WE’RE THAT SURE IT’LL WORK!

IDEAS FOR LIVING, INC. BOULDER, COLORADO 80304
Parents come to you for answers

Now you’ve got a good one.

Bridges To Reading

92% of all parents ask their doctor for answers when they suspect their child has a reading problem.

Now, when your patients ask you for help, you have a tool to recommend: Bridges To Reading

This comprehensive kit includes:

- 8 booklets filled with strategies to identify, understand, and address reading problems
- 2 audio tapes of the booklets
- 4 Reference guides with additional resources including guides on tutoring and Attention Deficit/Hyperactivity Disorder
- A parent/child activity booklet: “50 Fun Ways to Improve Reading”
- Plus more helpful, hands-on tools.

Call 1-800-471-9545 to order a Bridges To Reading™ kit for your office and to receive brochures to share with parents

$20 plus tax and shipping

Quantity discounts and scholarships are available.

The project was developed by the Parents’ Educational Resource Center (PERC) and underwritten by the Charles and Helen Schwab Foundation, a nonprofit foundation dedicated to improving the lives of children with learning differences.

5-DAY, ONCE-DAILY THERAPY for acute otitis media

- **DOSAGE GUIDELINES:**
  - **Day 1:** 10 mg/kg once (not to exceed 500 mg/day)
  - **Days 2–5:** 5 mg/kg once (not to exceed 250 mg/day)

- Available in 100 mg/5 mL and 200 mg/5 mL strengths

---

**ZITHROMAX® (azithromycin for oral suspension)**

**BRIEF SUMMARY**

**INDICATIONS AND USAGE**

**ZITHROMAX**® (azithromycin) is indicated for the treatment of patients with mild to moderate infections caused by susceptible organisms.

**CONTRAINDICATIONS**

**WARNINGS**

Serious allergic reactions, including anaphylaxis and angioedema, have been reported co-administered with azithromycin and are an indication for discontinuation of therapy.

**PRECAUTIONS**

**General**

Zithromax is contraindicated in patients with known hypersensitivity to other erythromycin, or any macrolide antibiotic.

**DOSAGE AND ADMINISTRATION**

**PHARMACOKINETICS**

Pharmacokinetic data on the extent or rate of absorption of the macrolide antibiotics have not been published.

**ADVERSE REACTIONS**

In clinical trials, the reported side effects were mild to moderate and were reversible upon discontinuation of the drug. Approximately 1% of patients had side effects that were not considered to be related to treatment-related side effects. The side effects leading to discontinuation were related to the gastrointestinal tract, i.e., nausea, vomiting, diarrhea, and abdominal pain. Potentially serious side effects of otitis media and adenoidal polyps were not reported.

**REFERENCES**

The antibiotic solution
with predictable results in
unpredictable patients

Predictable Coverage of
Key Pathogens:
H influenzae, S pneumoniae, and
M catarrhalis

Predictable Results:
Proven as effective as
Augmentin®

Predictable Convenience:
The only 5-day, once-daily
treatment

Predictably Well Tolerated:
Only 0.3% discontinuation due
to side effects

The most frequent side effects are
diarrhea/loose stools (2%), abdominal pain (2%),
vomiting (1%), and nausea (1%). Zithromax®
(azithromycin) is contraindicated in patients with
known hypersensitivity to macrolides.

* Due to Haemophilus influenzae, Streptococcus
pneumoniae, or Moraxella catarrhalis.
† Randomized, double-blind, double-dummy multicenter study in which 553
children with acute otitis media received powder for oral suspension forms
of Zithromax (azithromycin) (10 mg/kg on day 1, 5 mg/kg od on days 2-5)
or Augmentin (40 mg/kg/day in three divided doses for 10 days) and were
evaluated for clinical efficacy and safety.

Please see brief summary of prescribing information on adjacent page.
