New Applicants

Dear Academy Fellow:
In order to fulfill the admission requirements of AAP Bylaws, you are requested to 1) carefully review the following list of new applicants for Academy membership, and 2) relay your reactions directly to your District Chairperson, whose name and address is at the end of this list.

In submitting these names of board-certified pediatricians to you, it is understood that academic and pediatric credentials are not in question. Comments are requested concerning possible legal and/or ethical situations of which you might have personal knowledge.

Send any comments on the following list of new applicants to your District Chairperson by March 15.

American Academy of Pediatrics SECTION ON PERINATAL PEDIATRICS

WORKSHOP ON PERINATAL PRACTICE

SCOTTSDALE, ARIZONA / APRIL 11-13, 1997

POSTER SESSION CALL FOR ABSTRACTS

The Annual Workshop on Perinatal Practice, sponsored by the AAP Section on Perinatal Pediatrics wants to hear from you! This poster session is intended to address any and all aspects of our practices. Do you have something to say about:

HOSPITAL RE-ENGINEERING: IMPACT ON PATIENT CARE PRACTICE MANAGEMENT: SURVIVAL IN THE MANAGED CARE ERA CLINICAL PRACTICE: HOW DO WE MEET THE “BENCHMARK” CLINICAL-PRACTICE: UNIQUE MANAGEMENT STRATEGIES?

Don’t be limited by this list!

If you have ideas to share, send no more than one page overview by March 1, 1997. (There will be a reduction in Registration fees for approved Poster Session Participants.)

SUSAN E. DENSON, M.D., FAAP
4631 FANNIN, HOUSTON, TEXAS 77030
(713)792-5330 EXT. 3026
E-MAIL: sdenson@pedi.med.uh.tmc.edu

**AMERICAN ACADEMY OF PEDIATRICS SECTION ON ALLERGY AND IMMUNOLOGY VISITING PROFESSOR PROGRAM**

Could you benefit from an update on the latest information on pediatric allergy and immunology, straight from the professor’s “mouth”? If so, the AAP Section on Allergy and Immunology wants you to know about its Visiting Professor Program.

This program began in 1988, and its purpose is to send an allergist/immunologist for two days to pediatric training programs which do not have a pediatric allergist/immunologist on staff. A visiting professor provides lectures, discussion of clinical problems, and may assist in introducing certain procedures to enhance the allergy and immunology training of the pediatric house staff.

A list of the board-certified allergists/immunologists who are members of the AAP Section on Allergy and Immunology who have volunteered to participate in the Visiting Professor Program will be mailed to you upon request.

ANYONE INTERESTED IN RECEIVING MORE INFORMATION SHOULD CONTACT:

Anne McIeigh, Sections Manager
American Academy of Pediatrics
1410 Northwest Point Boulevard
Elk Grove Village, IL 60007
(630) 292-1144 (800) 433-9016, ext. 7658

Deadline for submission for the 1997 series is February 1, 1997.

---

Allergy Fellowship, 7/97 — UCLA-affiliated; emphasis on clinical research. Fax resumes to: (310) 494-0250 or mail to: 5100 E. Anaheim Rd., Long Beach, CA 90815.

January is National Volunteer Blood Donor Month
The American Association of Blood Banks encourages AAP News readers to give blood

Five Reasons to Help

- GIVING BLOOD IS SAFE. The U.S. Surgeon General and all medical authorities agree that it is not possible to catch any disease by giving blood.
- GIVING BLOOD IS EASY. The 5-8 minute donation will be over before you know it.
- GIVING BLOOD IS FAST. The entire life-saving process takes approximately one hour, so please be on time for your appointment.
- GIVING BLOOD SAVES LIVES. Because donations are processed into a variety of blood components, each donation can save the life of as many as four people. Your donation will help ensure an adequate supply at all times.
- GIVING BLOOD COULD SAVE YOUR LIFE. With our free mini-physical given before each donation.

$20 plus tax and shipping

Quantity discounts and scholarships are available.

This project was developed by the Parents’ Educational Resource Center (PERC) and was written by the Charles and Helen Schwab Foundation, a nonprofit foundation dedicated to improving the lives of children with learning differences.

January 1997 AAP News 37
Practitioners, ethicists, medical policy makers, and representatives of managed care are invited to meet together to re-examine the ethic of medicine as a profession and to consider challenges to ethical practice that physicians may encounter as a result of the rapid changes in the organization and financing of healthcare.

For more information or to request registration materials, call (847) 295-3456 or FAX (847)295-3759.

**Contemporary Healthcare and the Ethic of Medicine: What Is a Physician To Do?**

April 13-15, 1997
The Drake Hotel—Chicago, IL

**Confirmed Speakers:**
Saul Bellow, Roger J. Bulger, MD, Christine K. Cassel, MD, J. Lee Dockery, MD, John M. Eisenberg, MD, Jeremy Lazarus, MD, George D. Lundberg, MD, Mary H. McGrath, MD, MPH, Martin F. McKnally, MD, PhD, Lynn Peterson, MD, Edmund D. Pellegrino, MD, Raymond Scalletta, MD, and John Santa, MD

**CME Credit**
The American Academy of Otolaryngology—Head and Neck Surgery Foundation (AAO-HNSF) is accredited by the Accreditation Council for Continuing Medical Education to sponsor continuing medical education for physicians.

The AAO-HNSF designates this educational activity for a maximum of 13 hours in category 1 credit towards the AMA Physician's Recognition Award. Each physician should claim only those hours of credit that he/she actually spent in the educational activity.

"I'd thought nothing could wake our six year old son. But when a urologist recommended the Potty Pager, we decided to give it a try. Three weeks later our son's bedwetting problems were over!"

Jan Van Hoff

**Bedwetting! Why Just "Control" it When You Can CURE IT!**

With the WIRELESS alarm that alerts THE BEDWETTER...not the whole house!

The Potty Pager teaches bedwetters to respond normally to bladder fullness. It uses a tactile alarm, much like a silent business pager. It is 100% safe, runs on two "AA" batteries, and costs just $49.95 + S&H. It comes with a 30 day no-questions guarantee. We're that sure it'll work!

PEDIATRIC URGENT CARE

Gundersen Lutheran is currently seeking a Primary Care Physician with strong Pediatric background. Physician will practice in Urgent Care Clinic, which serves children needing non-emergency care. Physician will work a rotating schedule with other Urgent Care and Emergency Medicine physicians.

Gundersen Lutheran is a multi-specialty group practice with over 300 physicians. It’s main campus is adjacent to an affiliated 402-bed acute care hospital. The Gundersen system includes 33 regional community clinics based throughout western Wisconsin, eastern Minnesota, and northeastern Iowa.

La Crosse, Wisconsin, nestled between towering bluffs, is located where the Mississippi, La Crosse and Black Rivers merge. The area was untouched by the glaciers, leaving many hills and valleys as an outstanding scenic area. The metropolitan area of La Crosse, with its 100,000 people, offers exceptional year round opportunities for recreational activities.

We offer competitive salaries and excellent fringe benefits. Interested candidates should send a letter of application and curriculum vitae to Frank Perez-Guerra, Manager, Recruitment, Retention and Resource Planning, Gundersen Clinic, Ltd., 1836 South Avenue, La Crosse, WI 54601; or call 1-800-362-9567, ext. 6525.
Before you prescribe a narcotic/expectorant formula...

Robitussin® DM
Effective cough therapy.
Trusted care.

From chest congestion to dry and persistent coughing, Robitussin products provide effective, symptom-specific relief in cough formulas as individual as your patients' needs. It's a heritage of efficacy that makes Robitussin a standard in cough relief...and a safe replacement for iodinated glycerol products.

Robitussin®
The physician's #1 recommendation in non-narcotic cough therapy.
DOSAGE GUIDELINES:

Day 1: 10 mg/kg once (not to exceed 500 mg/day)

Days 2–5: 5 mg/kg once per day (not to exceed 250 mg/day)

Available in 100 mg/mL and 200 mg/5 mL strengths.
The antibiotic solution with predictable results in unpredictable patients

**Predictable Coverage of Key Pathogens:**
*H. influenzae, S. pneumoniae, and M. catarrhalis*

**Predictable Results:**
Proven as effective as Augmentin®

**Predictable Convenience:**
The only 5-day, once-daily treatment

**Predictably Well Tolerated:**
Only 0.3% discontinuation due to side effects

The most frequent side effects are diarrhea/loose stools (2%), abdominal pain (2%), vomiting (1%), and nausea (1%). Zithromax® (azithromycin) is contraindicated in patients with known hypersensitivity to macrolides.

*Due to Haemophilus influenzae, Streptococcus pneumoniae, or Moraxella catarrhalis.
† Randomized, double-blind, double-dummy multicenter study in which 553 children with acute otitis media received powder for oral suspension forms of Zithromax® (azithromycin) (10 mg/kg on day 1, 5 mg/kg qd on days 2–5) or Augmentin® (40 mg/kg/day in three divided doses for 10 days) and were evaluated for clinical efficacy and safety.
