Dear Academy Fellow:
In order to fulfill the admission requirements of AAP Bylaws, you are requested to:

Carefully review the following list of new applicants for Academy membership; and relay your reactions directly to your District Chairperson, whose name and address is at the end of this list.

In submitting these names of board-certified pediatricians to you, it is understood that academic and pediatric credentials are not in question. Comments are requested concerning possible legal or ethical situations of which you might have personal knowledge.

Send any comments on the following list of new applicants to your District Chairperson by June 15.
It's wireless. It's private. It inspires letters like this. And now it's CLINICALLY PROVEN EFFECTIVE.

In a two year clinical study at the University of Alabama medical school, the Potty Pager has been proven 71% effective on hard-to-reach TEEN bedwetters. (Lo, Perez, Hanchrow and Joseph)

So why just “control” bedwetting with drugs when you can CURE it! With the WIRELESS alarm that wakes the BEDWETTER... not the whole house!

The Potty Pager teaches bedwetters to respond normally to bladder fullness. It uses a tactile alarm, much like a silent business pager. It is 100% safe, and costs just $51.00 + S&H. It comes with a 30 day no-questions guarantee.

For complete information call: 800-497-6573 or 303-440-8517

Or visit our web site: www.pottypager.com

IDEAS FOR LIVING, INC.  
BOULDER, COLORADO  80304

"After ten years of agonizing, diapers, and two ineffective drugs, our son finally has the confidence for a sleep-over, thanks to the Potty Pager.

Daniel E. Turnbull"

Management of Complex Humanitarian Emergencies
Focus on Children and Families
June 19-23, 2000
The George S. Dively Building
Case Western Reserve University
Cleveland, Ohio

Supported by:
Center for International Health, Case Western Reserve University
American Academy of Pediatrics
International Pediatrics Association

This program is intended for pediatricians, primary health providers, NGO relief professionals and mental health professionals interested in training for the care of children and families during complex humanitarian emergencies.

After attending this program, participants will be able to:
1. Identify the most important problems and priorities in complex humanitarian emergencies; Identify organizations most frequently involved in providing help in complex humanitarian emergencies and define their roles and strengths; Identify the groups most vulnerable in complex humanitarian emergencies; Define common psychosocial issues of children and the means to address them; and employ skills in conflict resolution, negotiation, and cross cultural communication.

University Hospitals of Cleveland designates this educational activity for a maximum of 44 hours of category 1 credit towards the AMA Physician’s Recognition Award.

For additional information on the educational program and registration, or planning for lodging and transportation while in Cleveland, contact University Hospitals CME Program at 216/844-5950.

EMPLOYMENT OPPORTUNITIES

NORTHEAST

GENERAL PEDIATRICIAN — Bassett Health Care, a growing central New York State health care system and major teaching affiliate of University of Vermont, is seeking a general pediatrician to join the five member Division of Pediatrics. The successful candidate will be involved in the continued growth of a busy clinical and teaching practice. Candidates come from a ten county rural area of upstate New York. Candidates must be BC/BE, with interests in clinical teaching as well as general outpatient and inpatient pediatrics. This is a unique situation combining the advantages of multi-specialty group practice at an academic health center with a rural lifestyle. Cooperstown offers outstanding recreational facilities, outdoor activities in a beautiful region of lakes and hills, fine schools, and a safe, small town environment. We offer a competitive salary with incentives, paid malpractice, excellent benefits, and educational/travel allowance. Please send CV to: John Fraser, Director, Medical Staff Affairs, Bassett Healthcare, One Awbell Road, Cooperstown, NY 13326; phone: (607) 547-6982; fax: (607) 547-3844; e-mail: john.fraser@bassett.org. Currently there are no J-1 opportunities.

MID-ATLANTIC

SOUTHEASTERN PENNSYLVANIA-PRIME SUBURBAN OPPORTUNITY. Here’s a prime opportunity for a pediatrician looking to “start up” a private practice without the financial burden. Come on board with employee status and work along-side two recently hired part-time pediatricians. Share a call with Pediatricians in a neighboring practice, for a 24 call schedule. The office is under construction and will be completely brand new, state-of-the-art and ready to open in October. Extremely desirable Philadelphia suburb. Contact Robin Harrington, (800) 365-8900, ext. 257; rharrington@whcmail.com.

HUDSON COUNTY, NEW JERSEY. Solo pediatrician with busy, well-established practice seeks BC/BE bilingual Spanish/English pediatrician. Excellent salary/benefits. Partnership option in 3 years. Fax CV to (201) 863-3255.

SOUTHWEST

CALIFORNIA — Neonatologists (BC/BE) positions available throughout the Los Angeles

We are most nearly ourselves when we achieve the seriousness of the child at play. — Heraclitus —

As pediatricians we know this. Come and play with us.

If you are a pediatrician on maternity leave, retired, or looking for a way to work from home, consider a rewarding opportunity with drpaula.com the premiere website for pediatric and parenting advice. Our success has been overwhelming. However, it’s becoming more difficult to handle the increasing volume of questions coming in.

If you enjoy giving advice, join our team and help make a difference in the lives of parents and their kids. —Dr. Paula

If you are interested go to:
www.drpaula.com/medsearch
area with large physician owned private/academic multihospital-based private practice group specializing in neonatology and pediatrie intensive care. Competitive starting salary with profit sharing bonus and long-term employment options, clinical positions needed with academic association available. Positions available immediately. Contact: Pediatric Critical Care Medical Group, 5400 Balboa Blvd. Suite 331, Encino, CA 91316 – (818) 461-8888.

NORTHWEST

MONTANA, BOZEMAN — Four person pediatrie group seeking fifth paediatrician to share equally in work and call. General pediatrics practice, Level II nursery. For more information contact Paula: (406) 587-5123.

PEDIATRICIANS - GROUP HEALTH PERMANENTLY is currently seeking paediatricians. We are a physician-managed organization recently affiliated with Kaiser Permanent, internationally known for research and clinical program development. Our facility is located near Puget Sound with many recreational opportunities nearby. Visit our Web site at www.gch.org. Cover letter and CV can be faxed to (206) 448-6191 or e-mailed to williams.j@gh.org. For further information, call (800) 543-9323. Equal opportunity employer.

• BETTER COMPLIANCE MAY IMPROVE PATIENT OUTCOMES¹
• COSTS LESS THAN MOST BRAND-NAME ANTIBIOTICS²
• PROVEN TOLERABILITY

In acute otitis media, the most common side effects are diarrhea/loose stools (2%), abdominal pain (2%), vomiting (1%), and nausea (1%). In community-acquired pneumonia, the most common side effects are diarrhea/loose stools (5.8%), abdominal pain, vomiting, and nausea (1.9% each), and rash (1.6%).

Zithromax® (azithromycin for oral suspension) is contraindicated in patients with known hypersensitivity to azithromycin, erythromycin, or any macrolide antibiotic.

Zithromax is indicated for pediatric infections such as acute otitis media due to H influenzae, M catarrhalis, or S pneumoniae, and community-acquired pneumonia due to C pneumoniae, H influenzae, M pneumoniae, or S pneumoniae.

Oral azithromycin should not be used in pediatric patients with pneumonia who are judged to be inappropriate for oral therapy because of moderate to severe illness or risk factors such as any of the following: patients with cystic fibrosis, patients with nosocomially acquired infections, patients with known or suspected bacteremia, patients requiring hospitalization, or patients with significant underlying health problems that may compromise their ability to respond to their illness (including immunodeficiency or functional asplenia).

Please see brief summary of prescribing information on adjacent page.
