Dear Academy Fellow:

In order to fulfill the admission requirements of AAP Bylaws, you are requested to:

Carefully review the following list of new applicants for Academy membership; and relay your reactions directly to your District Chairperson, whose name and address is at the end of this list.

In submitting these names of board-certified pediatricians to you, it is understood that academic and pediatric credentials are not in question. Comments are requested concerning possible legal and/or ethical situations of which you might have personal knowledge.

Send any comments on the following list of new applicants to your District Chairperson by February 15.

After ten years of agonizing, diapers, and two ineffective drugs, our son finally has the confidence for a sleep-over, thanks to the Potty Pager.

Daniel E. Turnbull

It’s wireless. It’s private. It inspires letters like this. And now it’s CLINICALLY PROVEN EFFECTIVE.

In a two year clinical study at the University of Alabama medical school, the Potty Pager has been proven 71% effective on hard-to-reach TEEN bed-wetters. (Lo, Perez, Hanchrow and Joseph)

So why just “control” bedwetting with drugs when you can CURE it! With the WIRELESS alarm that wakes the BEDWETTER... not the whole house!

The Potty Pager teaches bed-wetters to respond normally to bladder fullness. It uses a tactile alarm, much like a silent business pager. It is 100% safe, and costs just $56.00 + S&H. It comes with a 90 day no-questions guarantee.
