Design Your Own CME

Join Us at the 2002 AAP National Conference & Exhibition

October 19-23, 2002 • Boston, MA
Hynes Convention Center/ Boston Marriott Copley Place

For over 350 years, people have come to Boston for top quality education. Be part of this great tradition. Plan now to come to Boston in October for the best in pediatric CME at the AAP National Conference & Exhibition.

Great CME
The fuller schedule and new formats introduced last year have been designed to give you more choices, more sessions, and more interactive learning...in short, more top-quality CME designed to meet your needs.

- Simpler pricing provides attendees easy access to more sessions. For most attendees, that means the highest value at a low price.
- Two-hour sessions (instead of three) provide more educational opportunities for each attendee each day.
- Over 350 sessions, including repeats of traditionally sold-out sessions, provide greater access to education on high-demand topics.
- Breakfast and lunchtime meet-the-expert discussions offer small-group access to pediatric leaders and provide access to more hours of CME each day.
- Interactive learning opportunities include over thirty audience response case discussions and more than fifty workshops.

Educational Highlights
From new diagnosis and treatment guidelines for common problems to the impact of the latest surgical techniques and genetic advancements, the 2002 National Conference & Exhibition offers top quality education. Highlights include:
- The International Colloquium sponsored by the American Academy of Pediatrics and the Indian Academy of Pediatrics
- Programs on terrorism and disaster preparedness
- Tissue Engineering
- Solving Children's Sleep Problems
- New Vaccines & Vaccine Combinations
- 2002 CDC STD guidelines
- Complementary and Alternative Medicine
- Hidden Gaps in Malpractice Coverage
- Gastroesophageal Reflux Disease
- Smallpox
- New Antibiotics, Antivirals, and Other Anti-Infectives
- A Complete Track on Developmental and Behavioral Pediatrics
- Spongiform Encephalopathy: Mad Cow Disease
- The pre-conference Neonatal/Pediatric Critical Care Transport Course
- New Perspectives in the Management of DDH
- Reducing Medical Errors
- Spirometry in Practice
- Pain Management
- Improve Your Bottom Line: Getting Paid for What You Do
- New Advances in the Management of Type 1 Diabetes
- The Pre-conference Medical Home Training Program

Why You Should Attend
- Network with your colleagues from across the country and around the world
- Discuss your most challenging cases
- Update your clinical skills and techniques
- Hear the latest from world-renowned pediatric experts
- Attend cutting-edge seminars, workshops, and sessions
- Earn valuable AMA PRA Category 1 credits
- Visit Boston, for the best from the colonial past and the cutting edge

Complete details, including registration materials, will appear in the June 2002 issue of AAP News. For program updates, visit the AAP Web site at www.aap.org/hce.htm.
Dear Academy Fellow:
In order to fulfill the admission requirements of AAP Bylaws, you are requested to:
Carefully review the following list of New Fellows for Academy membership and relay your reactions directly to your District Chairperson, whose name and address is at the end of this list. In submitting these names of board-certified pediatricians to you, it is understood that academic and pediatric credentials are not in question. Comments are requested concerning possible legal or ethical situations which you might have personal knowledge.
Send any comments on the following list of new Fellows to your District Chairperson.

Director, Environmental & Toxicology Division – The Department of Pediatrics at the University of Florida Health Science Center-Jacksonville seeks applicants for a new position in the General Pediatrics Division as a Director of the Environmental & Toxicology Division at the level of Assistant Professor/Associate Professor. This appointment is a full-time, non-tenure appointment and will be housed at the Duval County Health Department. Major responsibilities will include providing consultation and guidance to pediatricians in matters concerning how to diagnose, treat and prevent childhood diseases linked to environmental exposures; developing, implementing and serving as an active consultant in the Pediatric Resident Rotation as it relates to environmental contaminants affecting the community, with specialized focus on health risks to children. Applicants should possess a Ph.D. and be experienced in consulting with matters regarding environmental contaminants, particularly as they relate to pediatrics, and demonstrate excellent communication skills. Deadline for accepting applications is May 20, with an anticipated negotiable start date of June 24. Salary is negotiable. Forward letter of intent, curriculum vitae, and the names and addresses of three references to: Mobeen H. Rathore, M.D., Professor and Assistant Chair, Department of Pediatrics, University of Florida-Jacksonville, 653-1 W. Eighth St., Jacksonville, FL 32209. Phone: (904) 244-3050. The University of Florida is an Affirmative Action/Equal Opportunity Employer.

Senior Researcher Ethnographer/Qualitative Specialist – The Department of Pediatrics at the University of Florida Health Science Center-Jacksonville seeks applicants for a new position in the General Pediatrics Division as a Senior Researcher Ethnographer/Qualitative Specialist at the level of Research Assistant Professor/Research Associate Professor. This

---

“We my pediatrician friends told me alarms are useless. Now (thanks to the Potty Pager) I know they were wrong.”

Eugene Leiken, MD, Israel

“Our success rate with the Potty Pager is 75 to 80 percent.”

Rudolph Valentini, MD, pediatric nephrology, Children’s Hospital, Detroit

“Our six-year-old daughter was soaking the bed nightly. The third week on the Potty Pager it was like ‘poof’ – she was dry.”

The Noyes Family

“My ‘comatose’ nine-year-old had never had a dry night. In just six weeks (with the Potty Pager) he started sleeping dry through the night. Frankly, this is pretty miraculous.”

Sunny Rigby

“My six-year-old had never had a dry night. Within two weeks, he was sleeping dry through the night. I had no idea how successful this would be.”

Elaine Fournier

The Potty Pager teaches bed wetters to respond normally to bladder fullness. It uses a tactile alarm, much like a silent business pager. It is 100% safe, and costs just $56.00 + S&H. It comes with a 30 day no-questions guarantee.

For complete information call: 800-497-6573 or 303-440-8517

Or visit our web site: www.pottypager.com
