MAYO CLINIC

CHILD ABUSE PROGRAM DIRECTOR
Mayo Clinic
Mayo Medical School
Rochester, Minnesota

The Mayo Clinic seeks a physician Director for our Child Abuse Program. The Director would coordinate other physicians, psychologists, and nurse practitioners on the Child Abuse/Neglect Advisory Team. The well-established program has an experienced LICSW serving as the Child Abuse Coordinator with whom the Director will work. Clinical and educational opportunities exist with Mayo’s Pediatric, Family Medicine, Psychiatry, Psychology, and Emergency Medicine faculty and residents, as well as with Mayo Medical School students and allied health staff. The candidate will represent Mayo in child abuse/neglect related matters on a regional, state, and national level.

Mayo Clinic provides excellent career opportunities through our large outpatient clinical practice; the comprehensive Mayo Eugenio Litta Children’s Hospital, and our commitment to education and research. Mayo Clinic offers the advantages of a renowned medical center with a successful integrated group practice in a very attractive Midwestern locale with a population of 125,000.

The position would be divided between the Child Abuse Program and clinical work in the primary specialty area in which the candidate is trained. Candidates may come from one of the following clinical disciplines: Pediatrics, Psychiatry, Family Medicine, Behavior/Development, or Emergency Medicine.

Qualified individuals should forward their curriculum vitae and letters of interest to the chair of the search committee:

Jay L. Hoecker, M.D.
Interim-Director, Mayo Child Abuse Program and Search Committee Chair
Mayo Clinic
200 First Street, SW
Rochester, MN 55905

Mayo Foundation is an affirmative action and equal opportunity educator and employer.

“My pediatrician friends told me alarms are useless. Now (thanks to the Potty Pager) I know they were wrong.”

Eugene Leiken, MD, Isael

“Our success rate with the Potty Pager is 75 to 80 percent.”

Rudolph Valentini, MD, pediatric nephrology, Children’s Hospital, Detroit

“Our six-year-old daughter was soaking the bed nightly. The third week on the Potty Pager it was like ‘poof’ – she was dry.”

The Noyes Family

“My ‘comatose’ nine-year-old had never had a dry night. In just six weeks (with the Potty Pager) he started sleeping dry through the night. Frankly, this is pretty miraculous.”

Sunny Rigby

“My six-year-old had never had a dry night. Within two weeks, he was sleeping dry through the night. I had no idea how successful this would be.”

Elaine Fournier

The Potty Pager teaches bedwetters to respond normally to bladder fullness. It uses a tactile alarm, much like a silent business pager. It is 100% safe, and costs just $56.00 + S&H. It comes with a 30 day no-questions guarantee.

For complete information call: 800-497-6573 or 303-440-8517

Now that there's Single Dose Zithromax, you'll have to find a new use for all those extra spoons.

One 30-mg/kg dose of Zithromax delivers the efficacy of 20 doses of Augmentin® in acute otitis media

- Single Dose Zithromax has efficacy comparable with Augmentin at end of therapy (87% vs 88%) and test of cure (75% vs 75%)1,2
- A subset analysis also revealed comparable clinical success rates between Zithromax and Augmentin in patients aged 6 months to 2 years1
- Zithromax is well tolerated

Pseudomembranous colitis has been reported with nearly all antibacterial agents. It is important to consider this diagnosis in patients who present with diarrhea.

Zithromax is indicated for acute otitis media in children 6 months and older due to Haemophilus influenzae, Moraxella catarrhalis, or Streptococcus pneumoniae.

The whole in one.
(azithromycin for oral suspension)
