“Our success rate with the Potty Pager is 75 to 80 percent.”

Rudolph Valentini, MD, pediatric nephrology, Children’s Hospital, Detroit

“Our six-year-old daughter was soaking the bed nightly. The third week on the Potty Pager it was like ‘poof’ – she was dry.”

The Noyes Family

“My ‘comatose’ nine-year-old had never had a dry night. In just six weeks (with the Potty Pager) he started sleeping dry through the night. Frankly, this is pretty miraculous.”

Sunny Rigby

“My six-year-old had never had a dry night. Within two weeks, he was sleeping dry through the night. I had no idea how successful this would be.”
