CME & All That Jazz
Come to the Crescent City for 2003's premier pediatric CME event and so much more. Top quality education and world famous music, food and fun are waiting for you in New Orleans.

Unmask the Best in Pediatric CME
With a selection this big, it's easy to see how you can design a CME experience that's just right for you. The 2003 NCE offers nearly 300 sessions in 50 content areas and features practical updates on diagnosis, treatment, technical skills and research. Other offerings focus on practice management, advocacy, quality improvement and academic medicine. The NCE's full schedule and session formats have been designed to give you more choices, more opportunities, and more interactive learning ... in short, more top-quality CME.

- Nearly 300 sessions — including repeats of traditionally sold-out sessions — allow greater access to education on high-demand topics.
- Top faculty from across the country and around the world provide practical information and state-of-the-art updates.

2003 Session Highlights Include:
- SARS Update
- Surviving the Malpractice Crisis
- Prevention and Management of Childhood Obesity
- Preparing for Life in Academics
- What's New in Newborn Screening
- AAP Guidelines on the Diagnosis and Treatment of Children with ADHD
- Disasters and Terrorism: The Psychological Impact on Children
- Smallpox Vaccine: Issues for the Pediatrician
- Basic and Advanced Coding

Look Inside for the “Topic Outline”
The topic outline will help you get the most out of the NCE by helping you track offerings in each of the 50 topic areas, including:

- Adolescent Health
- Allergy, Immunology and Pulmonology
- Cardiology
- Community Pediatrics
- Critical Care/Transport Medicine/Emergency Medicine
- Developmental and Behavioral Pediatrics
- Infectious Diseases
- Neonatology/Perinatology
- Orthopedics
- Pediatric Practice Management
- Sports Medicine

Don’t Miss Out
- Network with your colleagues
- Update your clinical skills and techniques

Laissez Les Bons Temps Rouler!
With its world famous music, distinctive cuisine and rich history, New Orleans has a special magic all its own. Its round-the-clock entertainment, unique cultures and legendary Mardi Gras bring visitors back again and again. So make your plans now to attend the 2003 NCE. Visit this exciting city, and let the good times roll!

Quality Medical Equipment
Goodtime Medical offers a variety of pediatric and general treatment tables to meet your needs and put your patients at ease. All tables are shipped fully assembled and are available in 14 different colors.

Modular Caseework
Match your exam tables perfectly with high quality medical caseework. Full extension drawers and 3/4 inch thick doors are superior to thin metal cabinets. Caseework is easy to install and available in many sizes.

NEW

Youth Bed
The giraffe, monkey, and hippo are guaranteed to put a smile on your little patients' faces while providing all the essential needs for their care and comfort. Side rails are adjustable for easy access to patient. Headboard can be removed if necessary and is available in many sizes.

NEW

Whale
Make a splash with the whale as your patients climb up the tail. Wooden non-slip steps will ease your back and time because your patients boarded the whale by themselves. There is plenty of storage in the body of this friendly character with multiple storage cabinets. A footrest for taller patients is located in the tail.

Save time. Reduce paperwork.
Get paid faster.

Any volunteers?

From the moment a patient enters your office to the time their visit is paid for, Aetna can make things faster and easier. With our E-Pay™ program you can quickly verify current patient eligibility, submit and verify referrals and pre-certifications, file claims, check claim status, and receive payment—all electronically. Most correctly completed claims** are paid in under five days. It’s all part of making things easier and faster, to give you and your staff the time to focus on what’s most important—your patients.

Up to 4 years of data now show that Protopic is safe and effective long-term intermittent treatment for moderate to severe eczema.\textsuperscript{12}

News flash! Clinical trials show that Protopic treatment results in rapid clearing within 1 week, continuing improvement over time without loss of efficacy, and no systemic immunosuppression. Plus, Protopic is steroid free so there’s no risk of steroid-related side effects.\textsuperscript{11} Don’t your patients want a safe and effective treatment?

Protopic is indicated for short-term and intermittent long-term therapy in patients with moderate to severe atopic dermatitis who should avoid the potential risks of conventional therapies or are not adequately responsive to conventional therapies. Both 0.03\% and 0.1\% ointment can be used for adults. In children aged 2 to 15 years, only Protopic Ointment 0.03\% is indicated.

The most common adverse events with Protopic included the sensation of skin burning, pruritus, flu-like symptoms, and headache, and it is contraindicated in patients who are hypersensitive to tacrolimus or any of the other ingredients of Protopic.

Protopic Ointment should not be used with occlusive dressings.

Skin infections should be cleared prior to application, and there may be an increased risk of certain skin infections. Patients should minimize or avoid natural or artificial sunlight exposure.
