The continuing medical education (CME) workshop, Practical Pediatrics, will be held Oct. 1-3, in Naples, Fla.

The workshop, which includes question-and-answer sessions, presents topics that highlight the most recent advances and current issues in pediatrics and in various subspecialty areas. Practitioners can update their knowledge of clinical issues and increase their ability to diagnose and manage patients by analyzing cases with their peers.

Courses and faculty include:

- *Scourges of Suburbia: Lice, Scabies and Pinworms and Infection Control in the Office: Germ Busting 101,* with Meg Fisher, M.D., FAAP, professor of pediatrics, Drexel University School of Medicine, Philadelphia.

- *It Isn’t Always ADHD and Complementary and Alternative Therapies ... Myths, Miracles and Science,* with Chris Plauché Johnson, M.D., FAAP, professor of pediatrics, University of Texas Health Science Center at San Antonio.

- *Treatment Strategies for Adolescent Obesity and The Primary Care Provider’s Role in Identifying and Treating Substance Abuse,* with Richard E. Kreipe, M.D., FAAP, professor of pediatrics, University of Rochester, N.Y.

- *Heart Murmurs, Innocent or Guilty? A Pathophysiologic Approach to Heart Murmurs in Children,* with William A. Lutin, M.D., Ph.D., FACC, FAAP, professor of pediatrics (cardiology), Medical College of Georgia, Augusta.

- *Strength Training for Children and Ankle Injuries: Evaluation and Treatment,* with Paul R. Stricker, M.D., FAAP, assistant clinical professor of pediatrics, University of California, San Diego.

Workshop participants can earn up to 16.5 category 1 credits toward the American Medical Association’s Physician’s Recognition Award.

For more information on the workshops or to request a brochure for upcoming AAP CME activities, access www.pedialink.org/cmefinder, e-mail cme@aap.org or call toll-free (866) 434-2271.
