NEW FELLOWS

Dear Academy Fellow:

In order to fulfill the admission requirements of AAP Bylaws, you are requested to:

Carefully review the following list of new Fellows for Academy membership; and relay your reactions directly to your District Chairperson, whose name and address is at the end of this list. In submitting these names of board-certified pediatricians to you, it is understood that academic and pediatric credentials are not in question. Comments are requested concerning possible legal and/or ethical situations which you might have personal knowledge.

Send any comments on the following list of new Fellows to your District Chairperson.

## District I - Northeast

### Connecticut

- Jill Bernstein, M.D., FAAP
- Karen Nead, M.D., FAAP
- Sanjeev Rao, M.D., FAAP
- J. Schuck, M.D., FAAP
- Candra Smith-Slatas, M.D., FAAP

### Massachusetts

- Linda Fu, M.D., FAAP
- Kerry Anne Stone, M.D., FAAP
- Rhode Island

- Jennifer Friedman, M.D., FAAP
- Abbot Laptok, M.D., FAAP
- Mathieu Miclau, M.D., FAAP
- Uniformed Services-East

- David Roe, M.D., FAAP
- Daniel Tuckey, M.D., FAAP
- Edwin Wymer, D.O., FAAP
- Gianna Zeh, M.D., FAAP

### Vermont

- Morris Earle, M.D., FAAP
- Monica Fiorenza, M.D., FAAP
- Karen Leonard, M.D., FAAP
- Joshua Plavin, M.D., M.P.H., FAAP

## District II - New York State

### New York 1

- Indira Panthagani, M.D., FAAP
- Kristen Savage, M.D., FAAP
- Henry Tomai, M.D., FAAP

- New York 2

- Daniel Daniel, M.D., FAAP
- Emergency Medicine Specialty Fellow
- Malek, M.D., FAAP
- Colorado Marcantoni, M.D., FAAP
- M. Zhawee, M.D., FAAP
- New York 3

- Florencia Braier, M.D., FAAP
- Orthopaedics Specialty Fellow
- David Feldman, M.D., FAAP
- Adrienne Goldberg, M.D., FAAP
- New Rochelle, NY 10804
- Liza Natale, M.D., FAAP

### District of Columbia

- Jennifer Burns, M.D., FAAP
- Jennifer Maniscalco, M.D., FAAP
- Washington, DC 20016

### Maryland

- Sandra Amarel, M.D., FAAP
- Mark Langell, M.D., FAAP
- Jacqueline Le, M.D., FAAP
- Priya Stephen, M.D., FAAP

### South Carolina

- Caucasian Estock, M.D., FAAP

### Tennessee

- Jamal Abushaala, M.D., FAAP

### Virginia

- Rajeev Agarwal, M.D., FAAP

## District III - South Appalachian

### Kentucky

- Becky Carothers, M.D., FAAP
- Joshua Honaker, M.D., FAAP
- Patricia Morgan, M.D., FAAP

### North Carolina

- Michelle Barajaz, M.D., FAAP
- Andora Bass, M.D., FAAP
- Patrick Edwards, M.D., FAAP
- Abha Dewan, M.D., FAAP

### South Carolina

- Elizabeth Godfrey, M.D., FAAP
- Lynne Johnson, M.D., FAAP
- Saraha Kadel, M.D., FAAP
- Medha Patel, M.D., FAAP

### Tennessee

- Valene Davis, M.D., FAAP
- Mary Kline, M.D., FAAP
- Melissa Lambert, M.D., FAAP

## District IV - Great Lakes

### Indiana

- Cardiology & Cardiac Surgery Specialty Fellow
- Simon Abraham, M.D., FAAP
- Andora Bass, M.D., FAAP
- Patrick Edwards, M.D., FAAP
- Abha Dewan, M.D., FAAP

### Illinois

- Sarah Beans, M.D., FAAP
- Maria Camarda-Voight, M.D., FAAP

### Michigan

- Kathryn Davis, M.D., FAAP

### Missouri

- Corey Dean, M.D., FAAP
- Courtney Hart, M.D., FAAP
- Mary Kline, M.D., FAAP
- Keri Lattimore, M.D., FAAP

### Missouri

- Fatima Khan, M.D., FAAP
- Megan Littlefield, M.D., FAAP
- Mary Lockard, M.D., FAAP
- Jonathan Powell, M.D., FAAP

### Missouri

- Anjali Rao, M.D., FAAP
EXECUTIVE OPPORTUNITY
Director, Office of Children's Health Protection
U.S. EPA

The United States Environmental Protection Agency (US EPA) seeks an experienced medical or public health professional to serve as Director, Office of Children's Health Protection (OCHP) located in Washington, D.C. OCHP is dedicated to making the health protection of children and the aging a fundamental goal of public health and environmental protection in the United States and around the world. The Director reports directly to the EPA Administrator and exercises full managerial authority to integrate children's and aging issues into EPA's national agenda. The Director is also responsible for implementing the Executive Order to protect children from environmental health safety threats.

There are five executive core qualifications required of all Senior Executive Service members: leading change, leading people, results driven, business acumen, and building coalitions/communications. In addition to these five core qualifications, the technical requirement for this job is the ability to identify and analyze issues and relationships between policy and environmental issues.

EPA is an Equal Opportunity Employer. Minorities, women and persons with disabilities are strongly encouraged to apply. Salary will range from $104,927 to $145,600.

For additional information, contact Chaunta Gray (202) 564-0576 (phone) or email Gray.Chaunta@epa.gov
Download the complete vacancy announcement at www.USAJOBS.opm.gov
Control Number 286336
EPA-04-SES-OA-6326
This announcement closes on October 1, 2004.

“My pediatrician friends told me alarms are useless. Now (thanks to the Potty Pager) I know they were wrong.”
Eugene Leiken, MD, Israel

“Our success rate with the Potty Pager is 75 to 80 percent.”
Rudolph Valentini, MD, pediatric nephrology, Children's Hospital, Detroit

“Our six-year-old daughter was soaking the bed nightly. The third week on the Potty Pager it was like 'pool' – she was dry.”
The Noyes Family

“My 'comatose' nine-year-old had never had a dry night. In just six weeks (with the Potty Pager) he started sleeping dry through the night. Frankly, this is pretty miraculous.”
Sunny Rigby

“My six-year-old had never had a dry night. Within two weeks, he was sleeping dry through the night. I had no idea how successful this would be.”
Elaine Fournier

The Potty Pager teaches bedwetters to respond normally to bladder fullness. It uses a tactile alarm, much like a silent business pager. It is 100% safe, and costs just $56.00 + S&H. It comes with a 30 day no-questions guarantee.

For complete information call: 800-497-6573 or 303-440-8517
Or visit our web site: www.pottypager.com

Transatlantic Dialogues

in Pediatric

Acid-related Disorders

Introduction and objectives
Effective management of GERD in childhood: Assessing the impact on the risk of adult disease
Harland S. Winter
Benjamin D. Gold

A European perspective
Discussion and audience questions
Optimizing the treatment of reflux-associated asthma
Harland S. Winter

A European perspective
Discussion and audience questions
Helicobacter pylori eradication and the prevention of gastric cancer: When to test and treat?
Steven J. Czinn

A European perspective
Discussion and audience questions
Closing remarks
Harland S. Winter

Objectives
On completion of the activity, delegates should be able to:

Evaluate diagnostic and investigative techniques to assess immediate and long-term management goals for GERD in children, and give both North American and European perspectives on these goals.

Assess the long-term treatment options available for GERD in children, including H2RA or PPI therapy and surgical options, and discuss the best transatlantic practices.

Review the impact of medical therapy for GERD on extra-esophageal manifestations of GERD.

Discuss the epidemiology of H. pylori infection in infants, children, and adolescents.

Contrast transatlantic diagnostic methodologies and their utility in the pediatric age group.

Discuss indications and options for treatment to eradicate childhood H. pylori infection.

You are invited to view a webcast of this event at www.scicme.com/pediatric

Watch for our CME-accredited symposium, "Sharing Solutions in Gastroenterology: Building algorithms for pediatric gastroesophageal reflux disease" October 11, 7:00 - 8:30 p.m., Hilton, San Francisco

This activity is designated for up to a maximum of 1 category 1 AMA PRA credit

CME Consultants Inc. is accredited by the Accreditation Council for Medical Information (ACME) to provide continuing medical information for physicians

This activity is supported by an educational grant from TAP PHARMACEUTICAL PRODUCTS INC.
Alaska. A land of massive glaciers, endless mountain ranges, and outdoor recreation that's unequaled anywhere. Anchorage. A progressive, international city with a touch of sophistication. Southcentral Foundation is a nonprofit Native organization that incorporates traditional values into contemporary practices.

If you are a BC/BE Medical Director in Pediatrics, who loves a one-to-one physician to RN ratio, has a sense of adventure and enjoys new challenges, join our growing Pediatrics team and break new ground!

PEDIATRIC GASTROENTEROLOGIST
The Department of Pediatrics at Gundersen Lutheran is seeking a full-time pediatric gastroenterologist. The GI department has seven board-certified adult gastroenterologists and a state-of-the-art GI procedure lab available.

The Department of Pediatrics has 20 pediatricians, six PNP, four NNPs, and one PA. Our pediatric subspecialty areas include hematology/oncology, orthopedics, cardiology, asthma/allergy/immunology, ophthalmology, surgery, neonatology, neurodevelopment, neurology, genetics, and pediatric ICU. The pediatric inpatient service also includes a twelve patient NICU, a four patient PICU, and a 20 patient pediatric inpatient service.

We offer an excellent compensation/benefits package, including relocation expenses and continuing education opportunities. Interested candidates should contact Gale Kreibich, Medical Staff Development, Gundersen Lutheran, 1910 South Ave., La Crosse, WI 54601 at (800) 362-9567, Ext. 56863, Email: gkreibich@gundluth.org or Dr. Richard Strauss, Chair, Dept. of Pediatrics, Gundersen Lutheran, 1836 South Ave., La Crosse, WI 54601 at (800) 362-9567, Ext. 52809, Email: rstraus@gundluth.org.

We support a safe, healthy and drug-free work environment through background checks and controlled substance screening. EOE/AA
When you need to contact pediatricians, contact AAP News. Each month more than 60,000 pediatricians, pediatric-specialists, third-year pediatric residents and other subscribers turn to AAP News for child health information they cannot get elsewhere. With classified ads, you can speak directly to those readers. Although the Academy believes these classified ads are from reputable sources, the Academy does not investigate the offers made and assumes no responsibility concerning them.

Occasionally, it is necessary to modify the wording of classified ads. These changes are generally made in compliance with the regulations of various federal and/or state commissions against discrimination because they may interpret the ad as being unlawful or in conflict with accepted professional standards of medical practice.

These advertising modifications are made in the classified section of the Academy's professionally responsible, lawful, scientific and free of discrimination.

Publication of an advertisement in AAP News neither constitutes nor implies a guarantee or endorsement by AAP News, American Academy of Pediatrics of the product or service advertised or of the company or product or service by the advertiser.

Classification: Ads accepted under Business Services, General Announcements, Medical Services, Physicians Wanted, Practices Available, Publications, Real Estate and Residences/Fellowships Available.

Display Classified Ads
Camera-ready, 4-color, 3-color and 2-color display classified ads accepted under General Announcements, Medical Meetings, Physician Positions Wanted, Practices Available and Residences/Fellowships Available.

One 30-mg/kg dose of Zithromax delivers the efficacy of 20 doses of Augmentin® in acute otitis media

- Single Dose Zithromax has efficacy comparable with Augmentin at end of therapy (67% vs 80%) and test of cure (75% vs 75%)¹
- A subset analysis also revealed comparable clinical success rates between Zithromax and Augmentin in patients aged 6 months to 2 years²
- Zithromax is well tolerated
  —The overall incidence of adverse events was 16.8% for Zithromax compared with 22.5% for Augmentin³

Single Dose Zithromax is indicated for acute otitis media in children 6 months and older due to Haemophilus influenzae, Moraxella catarrhalis, or Streptococcus pneumoniae.

The most common side effects of Single Dose Zithromax are diarrhea (4.3%), vomiting (4.9%), abdominal pain (1.4%), rash (1%), and nausea (1%).

Zithromax is contraindicated in patients with known hypersensitivity to any macrolide antibiotic. If an allergic reaction occurs, discontinue drug and institute appropriate therapy. Physicians should be aware that reappearance of the allergic symptoms may occur when symptomatic therapy for the allergic reaction is discontinued.

Pseudomembranous colitis has been reported with nearly all antibacterial agents. It is important to consider this diagnosis in patients who present with diarrhea.
