American Academy of Pediatrics

Dear Academy Fellow:

In order to fulfill the admission requirements of AAP systems, you are requested to:

Carefully review the following list of new applicants and accept or reject them for Academy membership. Relay your reactions directly to your district chairman (whose name and address are listed at the end of this list).

In submitting these names of board-certified practitioners, it is understood that academic and pediatric credentials are not to be questioned as possible or actual ethical situations of which you might have personal knowledge.

Send any comments on the following list of new applicants to your district chairman by March 31.

American Academy of Pediatrics

The Virginia Apgar Award in Perinatal Pediatrics

The AAP Secion on Perinatal Pediatrics is now accepting nominations for the 1987 Virginia Apgar Award. The award is given annually to an individual whose career has had a continuing influence on the well-being of newborn infants.

All Fellows interested in perinatal pediatrics are invited to submit nominations. Nominations are not to be requested from the Academy.

Send all nominations by Feb. 20 to Robert T. Hall, M.D., program chairman of the AAP Section on Perinatal Pediatrics, at: Children's Mercy Hospital, at 4241 Gilham Road, Kansas City, Mo. 64108.

---

**The Lederle commitment continues**

**Pills are full now, but there was a time before modern immunization when they weren’t.”**

*Thankfully, to the combined efforts of the medical profession and pharmaceutical companies, diseases which once threatened all too many children and adults are now seen more in textbooks than doctor’s offices.*

**Lederle Laboratories takes pride in the part it has played—and is continuing to play—in this dramatic improvement in health care.**

**Lederle is proud that the company has effectively supplied the U.S. with live oral trivalent polio vaccine—OARIMUNE.**

**Lederle is also the only company which has consistently supplied DTP vaccine for over 40 years.**

While other companies are abandoning the vaccine business, the Lederle’s commitment is to make every effort to supply the vaccines needed by the medical community to practice preventive medicine in the best interest of the child.
