CME

CME in Las Vegas a win-win for everyone

Looking for some entertainment? Head to Practical Pediatrics Aug. 31 to Sept. 2 to learn about topics ranging from allergies to behavioral management while wining and dining in the Entertainment Capital of the World, Las Vegas.

Bellagio Las Vegas hosts the course, which includes lectures, seminars and question-and-answer sessions on issues important to children's health. Prominent faculty will give seminars focusing on immunology, cardiology, dermatology, developmental/behavioral pediatrics, orthopedics and rheumatology.

While in Vegas, be sure to visit The Secret Garden where you can see royal white tigers, white lions, black panthers, golden tigers and a snow leopard. If you are in a romantic mood, take a ride on the gondola at The Venetian or go up to the observation deck in the Eiffel Tower at Paris Las Vegas for a great view of the Las Vegas Valley.

Course highlights and faculty include:

- “Not Every Food ‘Allergy’ or Drug ‘Allergy’ is Allergy,” with Sami Bahna, M.D., Dr.P.H., FACAAl, FAAAAI, FAAP, professor of pediatrics and chief of allergy and immunology at Louisiana State University Health Sciences Center, Shreveport;
- “Common Fractures Seen in the Office,” with Paul W. Esposito, M.D., FAAOS, FAAP, professor of orthopedic surgery and pediatrics at University of Nebraska Medical Center, Omaha;
- “Sudden Death in Athletes: Can It Be Prevented?” with William W. Hammill, M.D., FACC, FAAP, pediatric cardiologist, Presbyterian Pediatric Cardiology, Charlotte, N.C.;

- “Discipline and Behavioral Management of Preschool Children,” with David J. Schonfeld, M.D., FAAP, professor of pediatrics, director of the Division of Developmental/Behavioral Pediatrics and director of the National Center for School Crisis and Bereavement at Cincinnati Children’s Hospital Medical Center;
- “Cutaneous Infestations and Infections in Children,” with Patricia A. Treadwell, M.D., FAAD, FAAP, professor of pediatrics at Indiana University School of Medicine, Indianapolis; and
- “Musculoskeletal and Skin Exam: Rheumatology Diagnosis and Physical Findings,” with Linda Wagner-Weiner, M.D., professor of pediatrics at University of Chicago.

Participants can receive a maximum of 17.25 AMA PRA Category 1 credits. For early bird rates, register by Aug. 3.
