

Health Alerts

The U.S. Consumer Product Safety Commission (CPSC) has announced the recall of the following products. Consumers should stop using recalled products unless otherwise instructed. Consumers can submit reports of harm to CPSC's new searchable online product safety database at www.SaferProducts.gov. A searchable food and medical product recall database is available at www.fda.gov/Safety/Recalls/default.htm.

Seat adaptors

Units: About 23,700

Hazard: The car seat adaptor support bars can fail, and children can fall out.

Description: The car seat adaptors come in three models and are used to secure infant car seats onto Baby Jogger strollers. The "Single" model fits all single strollers (model BJ90121), the "Double" works only on double strollers (model BJ90221) and the "Select/Versa" fits Select and Versa strollers (model BJ90321). The adaptors have two U-shaped, black, aluminum support bars and two black plastic adaptors that allow the support bars to attach onto the stroller. The black support bars are labeled A and B. The A support bar is the larger of the two U-shaped bars and has a red plastic tip with 10 holes. Newer models have only four holes and are not recalled. Recalled models were manufactured between April 1 and Sept 20, 2012.

Sold at: Buy Buy Baby and other juvenile product stores nationwide and at albeebaby.com, amazon.com, buybuybaby.com, diapers.com and other online retailers from June 2012 through June 2013 for about \$60 for the single adaptor and \$100 for the double adaptor.

Remedy: Contact Baby Jogger for free replacement support bars.

Contact: Call 877-506-2213 or visit www.babyjogger.com.
