Ensuring the Future of Pediatrics

We are pleased to recognize the distinguished members and friends who have made gifts and pledges to the Tomorrow's Children Endowment (TCE). Endowment gifts provide the extra measure of support that helps ensure that the AAP will have resources for future programs and activities in education, service, research and advocacy, beyond what current revenue sources provide.

Donations to the TCE are placed in an account that gains income, and only the income can be used to sup-

port programs and activities as outlined by the endowment guidelines. The principal remains untouched to gain income for future use.

This past fiscal year, thanks to your generosity, \$119,000 was awarded to begin a National Center on Early Childhood Foundations of Wellness and Resilience

to be housed at the AAP. This Center will work on the promotion of optimal early brain and child development and childhood resilience that is essential for the health and well-being of our nation's children.

If you have included the AAP in your estate plans, please let us know so that we may recognize your generosity appropriately. If you would like more information on making a life-income gift or bequest to the American Academy of Pediatrics, or to learn more about the possible tax advantages of charitable giving, please contact Joseph Like at jlike@aap.org.

We make every effort to ensure that all information is correct. However, if we have inadvertently made an error, please contact Department of Development at 888-700-5378.
