

## CME

### Hot topics in pediatrics highlighted in California CME course

Looking for an early summer break? Disney's Grand Californian hotel and spa in Anaheim, Calif., is the place for fun and education at the Practical Pediatrics Course, June 20-22.

Pediatricians will appreciate current issues offered at Practical Pediatrics in formats that meet all learning styles, including lectures, interactive seminars and question-and-answer sessions. Attendees will improve their ability to diagnose and manage patients by analyzing and discussing cases with the faculty and peers. The weekend half-day schedule also allows time for recreation.

Situated between Los Angeles and San Diego, Anaheim has many popular attractions, such as Disneyland and Disney California Adventure Park, Downtown Disney District, the Anaheim Garden Walk, the City National Grove of Anaheim and the new Founders' Park museum for historic artifacts.

Course highlights and faculty include:

- "Toxic Stress and the Developing Child," "Autism in the Office," "The Expedition to Transition" and "ADHD: Old, New, Borrowed, Blue," with Alison D. Schonwald, M.D., FAAP, of Harvard Medical School;
- "Challenging Pediatric GI Cases," "Celiac Disease," "Constipation" and "Obesity and Overweight: What Works?" with Athos Bousvaros, M.D., of Boston Children's Hospital;
- "Current Treatment Strategies for Pediatric OSA," "The Noisy Airway: Evaluation of Stridor in the Infant and Child," "Tube Otorrhea: Management of the Leaky Tube" and "Tic Talk: Identification and Management of Vocal Tics," with Eric Alan Mair, M.D., FAAP, of University of North Carolina at Chapel Hill;

- "Cutaneous Manifestations of Systemic Disease," "Childhood Exanthems," "Pediatric Dermatology Potpourri" and "Topical Eczema Therapies: A Rational Approach," with Fred E. Ghali, M.D., FAAP, of UT Southwestern Medical School;
- "Apparent Life Threatening Events," "Preventing Lawsuits in Acute Care Pediatrics and Pediatric Emergency Medicine" and "Head Injuries: Mild Traumatic Brain Injury," with Karen Ann Santucci, M.D., FAAP, of Yale University School of Medicine; and
- "Office Based Asthma Emergencies Simulation," "A Case-based Approach to Pediatric Pneumonia," "Pediatric Asthma Therapy: What's New or Different" and "Technology Dependent Children: Pearls for the Primary Care Physician," with Veda L. Ackerman, M.D., FAAP, of Indiana University School of Medicine.

Participants can earn a maximum of 17.25 hours of AMA PRA Category 1 credits. Register by May 23 for early bird rates.
