The following criteria must be met to be eligible to sit for the examination:

1. Certification by the American Board of Pediatrics.

2. Physicians who entered pediatric hematology-oncology training prior to January 1, 1981, may apply for admission to the examination on the basis of their completion of two years of subspecialty residency training in pediatric hematology-oncology.

3. Verification of training and recommendation by Program Director.

Each application will be considered individually and must be accepted to the Sub-board of Pediatric Hematology-Oncology Registration. Registration for this examination will end from OCTOBER 1, 1989, to DECEMBER 30, 1989. Requirements of those physicians entering training on or after January 1, 1988, will be required to complete their subspecialty residency training in a program accredited for training in pediatric hematology-oncology by the Residency Review Committee for Pediatrics (RRC).
