ARTICLES

Members elect Dr. Shea vice president
AAP members have chosen Daniel Shea, M.D., as the 1990-91 vice president. He will assume the AAP presidency in 1991 ................................................1

AAP opposes proposed office lab regulations
The Academy is urging physicians to act against proposed regulations that would place virtually all pediatric office laboratories under stringent federal scrutiny ..................................................1

States scrambling to afford Medicaid expansions
Depending on who you talk to, opinions on the Medicaid expansion mandated by the Omnibus Budget Reconciliation Act of 1989 (OBRA-89) range from "a great piece of child legislation" to "one of the states' better kept secrets" ..............................................2

AAP presses FDA for stricter food label standards
AAP officials are urging the U.S. Food and Drug Administration (FDA) to stiffen its proposed regulations for "health messages" on food labels ..............2

Physician runs rare camp for "special population"
Summers always seem to be the most depressing time of year for Kimberly Pearsall, 18, who most other months copes well with a birth injury that paralyzed her limbs, impeded her memory and her ventilator-dependent .................................4

Camps, groups for disabled children exist nationwide
Several summer camp programs for children with special needs exist nationwide ........................................4

Sen. Rockefeller 'ashamed' of child health care conditions
In his keynote address during the AAP Spring Session, Sen. John "Jay" Rockefeller (D-W.V.) described his visits with families and health care experts nationwide where he said children's lack of access to appropriate medical and child care make him "ashamed." ......................................................................5

Dr. Harvey pushes for national child health policy
AAP President Birt Harvey, M.D. recently told reporters that federal lawmakers should develop a national children's policy and pediatricians should work to make children's health a "national responsibility." ..................................................5

Women pediatricians tackle issues at spring meeting
Two hundred female pediatricians met during the AAP Spring Session in April to discuss issues concerning them -- and all pediatricians ................7

Conference: AAP needs more women leaders
While attending the Third Women's Leadership Conference in April, representatives from each AAP chapter were urged to work within their state chapters and regional districts to increase female participation within the Academy ...........................................14

Dr. Green: behavioral counseling is time well spent
Morris Green, M.D., FAAP, recipient of the 1990 Abraham Jacoby Award, says pediatricians should become increasingly involved in a child's adaptation as well as their physical growth ...........................................17
