New Applicants

Dear Academy Fellow:

In order to fulfill the admission requirements of AAP Syllabus, you are requested to:

- Carefully review the following list of new applicants for Academy membership. Relay your reactions directly to your district chairman (who’s name and address is listed at the end of this list).

In submitting these names of board-certified pediatrics to you, it is understood that academic and pediatric credentials are not in question. Comments are requested concerning possible legal or ethical situations of which you might have personal knowledge.

Send any comments on the following list of new applicants to your district chairman by February 15.

[List of new applicants]

[End of document]
California Immediate opening for Board-Certified/Board-Eligible Pediatrician in well-established, rapidly growing, 32-physician multi-specialty group. Located in the San Francisco Bay area in a community serving over 170,000. Patients include minority, for-service and prepaid health plan. Attractive income, and benefit package. Malpractice provided. California license required. Send CV to: Burt Benrus, M.D., FAAP, Fairview Group, Caller Box 4200, Fairfield, CA 94533-0410, (707) 426-9116.

CAROLINAS- Pediatrician: BC/BE needed to join solo practice. Excellent opportunity in a growing multi-specialty practice. Send CV to: Robert L. Patton, M.D., FAAP, 2244 Barton Avenue, South Lake Tahoe, CA 96150.

Montana: BC/BE Pediatrician to join practice in growing, four-person pediatric group in Billings. Excellent opportunity with fine community lifestyle in a healthy family and medi- cal community. Send CV to: Helena Pediatric Clinic, 1301 N. Helena Avenue, Helena, MT 59601.

26 AAP News/January 1992
Candidates Sought
James E. Strain, M.D., who has been Executive Director of the American Academy of Pediatrics for the past five-and-a-half years, has tendered his resignation effective in July 1993. A Search Committee has been constituted to evaluate applicants for this position. The Executive Director provides leadership and direction to the Academy and its staff on a day-to-day basis and ensures that the policies of the Academy are carried out. The Executive Director reports directly to the Executive Committee and to the Executive Board. Candidates must be pediatricians and Fellows of the AAP. They should have a broad understanding of Pediatrics. Past involvement in the Academy's activities is highly desirable. Proven administrative and verbal skills and an ability to effectively and articularly represent the Academy in a wide variety of circumstances are essential. Applications from qualified women and minority candidates are encouraged.

The Executive Directorship is based at the AAP offices in Elk Grove Village, Illinois. The position entails considerable travel. Applicants should expect to devote a minimum of seven to ten years to the position.

Nominations, applications and a current curriculum vitae should be submitted prior to April 1, 1992 to:

Daniel Shea, M.D.
President, American Academy of Pediatrics
P.O. Box 368
De Pere, WI 54115

1992 Virginia Apgar Award
The AAP Section on Perinatal Pediatrics is now accepting nominations for the 1992 Virginia Apgar Award. The award is given annually to an individual whose career has had a continuing influence on the well-being of newborn infants.

All those interested in Perinatal Pediatrics are invited to submit nominations. Nominees need not be members of the Academy.

Send all nominations by March 15, 1992 to John M. Driscoll, Jr., M.D., Babies Hospital, Box 13, 3959 Broadway, New York, NY 10032; (212) 305-8500.

The 1991 recipient of the award was Mary Ellen Avery. Past Apgar Award recipients include: William A. Silverman, Geoffrey S. Dawes, L. Stanley James, Mildred Stahlman, William Tooley and Peter Karlberg.

The 1992 award recipient will be selected in April. The award is sponsored by a grant from Ross Laboratories and will be presented at the meeting of the Perinatal Section during the 1992 AAP Annual Meeting in San Francisco.

ATTENTION DISORDERS
with or without Hyperactivity
developed by Rina Ullmann, M.Ed., Esther Slater, M.D., Robert Sprague, Ph.D.

Accurate diagnosis of ADHD is often difficult because approximately 80% of ADHD children behave well in the doctor's office. For this reason, physicians rely heavily on feedback from classroom teachers in diagnosing, medicating, and monitoring children with attention disorders.

ACTeRs is a standardized teacher rating form for grades K-8 that objectively measures four separate characteristics: Attention, Hyperactivity, Social Skills, and Oppositional Behavior. The reliability, validity, and utility of ACTeRs have been repeatedly demonstrated in published studies and clinical trials throughout its 20-year research history. Teachers respond to the 24 items that describe classroom behavior. These ratings are summed and transferred to the Profile Form where norm comparisons are read directly.

☐ Examiner's Kit (Manual and Rating/Profile Forms) $15.00
☐ Microcomputer Version (IBM PC only, Examiner's Kit also required) $125.00

Specially designed pediatric formulas.

From a name you trust.

Robitussin® Pediatric

Robitussin® Pediatric Cough Suppressant
Developed for the special therapy considerations of children, it provides pure cough suppression—7.5 mg. per teaspoon of dextromethorphan only. Daytime or nighttime, Robitussin Pediatric Cough Suppressant provides up to 8 hours of relief from a child’s dry, hacking cough. It’s non-narcotic, non-alcoholic, sugar-free. And it’s cherry-flavored to encourage compliance.

And introducing Robitussin® Pediatric Cough & Cold
For nasal congestion and coughing, it provides the effective cough control of dextromethorphan combined with the proven decongestant relief of pseudoephedrine. It’s also non-narcotic, non-alcoholic, sugar-free and cherry-flavored. So when it comes to a child’s cough or cold, the Robitussin Pediatric Formulas are recommendations you and parents can trust.

Robitussin®
The physician’s first choice in OTC cough therapy.
