New Applicants

In submitting these names of board-certified pediatrics to you, I trust that you understand that academic and pediatric credentials are not in question. Comments are requested concerning possible legal and/or ethical implications of the information at which of which you might rely. Send any comments on the following list of new applicants to your District Chairperson by April 15.

American Academy of Pediatrics

When you need to contact pediatrics, contact AAP NEWS. Each month, more than 46,000 pediatrics, third-year pediatric residents and other subscribers turn to AAP NEWS for child health information. They cannot get elsewhere. When you classify an ad, you can speak directly to those readers.

Rates: The one-time cost for placing a classified ad is $120 for 50 or fewer words and $1.50 for each additional word. A $20 discount per month is allowed for ads that are published in three or more consecutive issues. The three issues must be purchased at the same time. Ads may be broadcast at a one-time cost of $80.

Classifications: Classified ads are accepted under Business Services, General Announcements, Medical Meetings, Physicians Wanted, Positions Wanted, Practices Available, Publications, Real Estate, and Residencies/Fellowships Available.

Display Classified Ads: Display classified ads are accepted under General Announcements, Medical Meetings, Physicians Wanted, Positions Wanted, Practices Available and Residencies/Fellowships Available. Contact AAP NEWS for display classified ad sizes and rates.

Blind Box Returns: Available for a $25 service charge per ad, these classified ads are returned by mail to the address of your choice. Any response to: Box Number, AAP NEWS, Classified Ads, P.O. Box 927, Elk Grove Village, IL 60009-0027.

Advertising policy: Although the Academy believes these classified ads are from respectable sources, the Academy does not investigate the offers made and assumes no responsibility concerning them.

Frequently, it is necessary to modify the wording of classified ads. These changes are generally made in compliance with the regulations of various federal and/or state commissions against discrimination or because they might be interpreted as being unlawful or in conflict with professional standards of medical practice. Advertisements for employment containing specifications as to race, creed, color, age, religion, sex, ethnic origin, or national origin may be unlawful and professional impropriety unascertained. Accordingly, discriminatory wording is not acceptable in AAP NEWS.

Other phrases for publication in various advertising classifications might be interpreted as being unlawful and in conflict with professional standards of medical practice. Improper language could include:

"Complete list of patients’ records for sale." The offer of rebates or "kickbacks;" wording that could be interpreted as derogatory or defamatory to other physicians; misspellings, typographical errors, or incorrect data.

These advertising modifications are made to maintain a classified advertising section that is professionally responsible, lawful, scientific and free of discrimination.

Policy Statement copies

Individuals 8-1/2 by 11-inch copies of AAP policy statements are available from the AAP Publications Office, 1315 North Dearborn St., Chicago, IL 60610 (312) 464-6800. A complete Policy Reference Manual, including all approved AAP Policy Statements is also available for a charge.

developed by Rina Ullmann, M.Ed., Esther Slatore, M.D., Robert Sprague, Ph.D.

Accurate diagnosis of ADHD is often difficult because approximately 80% of ADHD children behave well in the doctor's office. For this reason, physicians rely heavily on feedback from classroom teachers in diagnosing, medicating, and monitoring children with attention disorders.

**ACTeR5** is a standardized teacher rating form for grades K-8 that provides separate characteristics: Attention, Hyperactivity, Social Skills, and Oppositional Behavior. The reliability, validity, and utility of ACTeR5 have been repeatedly demonstrated in published studies and clinical trials throughout its 20-year research history. Teachers respond to the 24 items that describe classroom behavior. These ratings are summed and transferred to the Profile Form where norm comparisons are read directly.

- **Examiner's Manual and Rating Forms**: $125.00
- **Microcomputer Version (IBM-PC only. Examiner's Kit also required.)**: $45.00 plus $5 s/h

Safe Kids Week

SAFE KIDS AMERICA, one of the largest, most comprehensive outreach projects in the history of childhood injury prevention, began in January 1993 and culminates during National Safe Kids Week, May 22-29.

Among SAFE KIDS AMERICA's many highlights:

- Community safety events including bike rodeos, safety fairs, smoke detector giveaways and installations, and playground inspections to take place during National Safe Kids Week, May 22-29.

- Special edition of CBS's "Rescue 911" focusing on preventable childhood injuries, to air May 25.

- Unveiling and airing of a new National SAFE KIDS Campaign public service announcement on child passenger safety.

- Johnson & Johnson newspaper advertising supplement reaching 55 million homes and offering free First Alert smoke detectors.

- Injury prevention materials distributed at more than 8,000 stores across America.

Leading up to the May events, watch for the first-ever SAFE KIDS Campaign advertisement on childhood injury prevention. Created by Johnson & Johnson, it will be broadcast in prime time on CBS, ABC and NBC during SAFE KIDS AMERICA.

For more information on how you can get involved, write to:

National Rural Health Association Meeting

The National Rural Health Association (NRHA) will hold its 16th annual national conference on rural health, "Rural Health: Putting the Pieces Together," May 12-15, 1993, at the Hyatt Regency Crown Center Hotel in Kansas City, MO.

Co-sponsors of the conference include the American Academy of Family Physicians, the American Academy of Pediatrics, the American College of Preventive Medicine, the American College of Rural and Tribal Physicians, the National Association of County and State Rural Health Officials, the federal Indian Health Service, and the National Clearinghouse for Primary Care Information.

To receive registration information, contact the NRHA at (816) 756-3140.

ONLY 7 MONTHS 'TIL OCTOBER...!

The Academy is once again sponsoring Child Health Month during October as a prominent feature of the Children's Our Future Campaign. It is not too early to start planning an event or events in your community - Town Forums, a health fair, a hotline, or a TV interview, a conference or seminar - to raise awareness of the importance of preventive health care for children.

This year's theme is "Solutions Before Problems," and our three areas of emphasis are injury prevention, disease prevention and substance abuse prevention.

Look for more information in upcoming issues of AAP News and for additional resources from the Academy in the months ahead.
From chest congestion to dry and persistent coughing, Robitussin products provide effective, symptom-specific relief in cough formulas as individual as your patients’ needs. It’s a heritage of efficacy that makes Robitussin a standard in cough relief.

Robitussin.
The physician’s #1 recommendation in non-Rx cough therapy.
