American Academy of Pediatrics

When you need to contact pediatricians, contact AAP NEWS. Each month, more than 4600 pediatricians, third-year pediatric residents and other providers return to AAP NEWS for child health information they cannot get elsewhere. With a classified ad, you can speak directly to those readers.

Rates: The one-time cost for placing a classified ad is $120 for 30 or fewer words and $1.50 for each additional word. A $10 discount per month is allowed for ads that are published in three or more consecutive issues. The three issues must be purchased at the same time. Ads may be boxed for a one-time cost of $80.

Classifieds: Classified ads are accepted under Business Services, General Announcements, Medical Meetings, Meetings Physicians Wanted, Positions Wanted, Practice Announcements, Publications, Real Estate, and Residencies/Fellowships.

Display Classifieds: Display classified ads are accepted under General Announcements, Medical Meetings, Meetings Physicians Wanted, Positions Wanted, Practices Announcements, Publications, Real Estate, and Residencies/Fellowships.

General Announcements

Ronald McDonald Children's Charities (RMCC) is now accepting nominations for an outstanding pediatrician to receive its 1993 Medical Award of Excellence. The Medical Award of Excellence was created by RMCC to honor an individual who has devoted himself or herself to the lifelong commitment of improving the lives and well-being of children. The $100,000 Award is given annually to a medical professional who has made the greatest contribution to the health of children. The medical award winner will be selected by RMCC's Board of Trustees, and representatives from the American Academy of Pediatrics, American Pediatric Society, and Society of Pediatric Research. In past years, candidates have represented a broad range of the medical community including basic scientists, surgeons, orthopedists, clinical researchers and world health authorities. RMCC also welcomes candidates proposed by medical schools, pediatric organizations and individuals. Nomination forms for RMCC Awards of Excellence are available by visiting: Awards of Excellence, Ronald McDonald Children’s Charities, Campus Office Building, 2915 Jorie Boulevard, Oak Brook, IL 60521. The deadline for submitting nominations is June 15, 1993.

The American Medical Equestrian Association (AMEA) has developed a brochure which addresses children's safety in equestrian sports and is entitled, "When Can My Child Ride a Horse?". Brochures are available in any amount and without cost to pediatricians for distribution to their patients. Please send your request indicating the number of brochures desired to: American Medical Equestrian Association, 103 Sunset Boulevard, Wayne, NJ 07470.
ATTENTION DISORDERS

with or without Hyperactivity

designed by Neal V. Lume, M.D., Esther Saxton, M.D., Robert Sprague, Ph.D.

Accurate diagnosis of ADHD is often difficult because approximately 80% of ADHD children behave well in the doctor's office. For this reason, physicians rely heavily on feedback from classroom teachers in diagnosing, medicating, and monitoring children with attention disorders.

ACTeRS is a standardized teacher rating form for grades K-8 that can objectively measure four separate characteristics: Attention, Hyperactivity, Social Skills, and Oppositional Behavior. The reliability, validity, and utility of ACTeRS has been repeatedly demonstrated in published studies and clinical trials throughout its 20-year research history. Teachers respond to the 24 items that describe classroom behavior. These ratings are summed and transferred to the Profile Form where norms comparisons are read directly.

Examiner's Kit (Manual and Rating/Profile Forms) $52.00 plus $5 s/h

- Microcomputer Version: IBM/PC only. Examiner's Kit also required.

- Please add $12.00 plus $5 s/h

- Please bill me

NOW, KIDS CAN GROW UP WITH DIMETAPP®.

New Dimetapp® Chewable Tablets

Unsurpassed efficacy and a great grape taste.

Dimetapp stands for a heritage of efficacy and good taste. And, now, that heritage continues in a new form. New Dimetapp Chewable Tablets contain the same ingredients as Dimetapp Elixir to provide unsurpassed cold and allergy relief in a grape-tasting tablet. Each Dimetapp Chewable Tablet contains 1 mg of brompheniramine and 6.25 mg of phenylpropanolamine. And Dimetapp Chewable Tablets were taste tested by children and significantly preferred over grape-tasting Children’s Tylenol® Cold Chewable Tablets.1

Dimetapp® Elixir: Effective cold relief and a heritage of compliance.

Dimetapp Elixir combines one of the most effective non-prescription antihistamines2 with an effective nasal decongestant for cold relief you can trust. Dimetapp relieves sniffing and sneezing while it eases nasal congestion and helps restore freer breathing.

Dimetapp® DM: Cold relief plus cough suppression in a red grape taste.

Dimetapp DM relieves cold symptoms and quiets coughs, too. It contains dextromethorphan, the most recommended non-narcotic cough suppressant. Recommend Dimetapp for efficacy, trust and compliance in a single word.

TRUST DIMETAPP®
The most recommended antihistamine/decongestant formula for children’s cold and allergy relief.
