

1 **Title of Manuscript [97 characters max, including spaces]**

2
3 Alice B. Smith^a, MD, Clarence Jones^{a,b}, MD, PhD, Ann S.
4 Noble^b, MPH, Murray Green, PhD, on behalf of Authoring
5 Group (if any)
6

7 **Affiliations:** ^aChildren’s Hospital, Chicago, Illinois; and ^bUniversity of Chicago,
8 Chicago, Illinois
9

10 **Address correspondence to:** Alice Smith, Department of Pediatrics, Children’s Hospital,
11 1234
12 Main Street, Chicago IL, 60641, [asmith@example.com], 773-900-9000.
13

14 **Short title:** Short running title for Manuscript [55 characters maximum, including spaces]
15

16 **Conflict of Interest Disclosures (includes financial disclosures):** Ann Noble
17 has example conflict. Clarence Jones has other example conflict. The other
18 authors have no example conflicts of interest to disclose.
19

20 **Funding/Support:** All phases of this study were supported by an example
21 NIH grant, #####. [or] No funding was secured for this study.
22

23 **Role of Funder/Sponsor (if any):** The NIH example had no role in the design
24 and conduct of the study. Bayer Healthcare example provided reagents for B-
25 type natriuretic peptide testing.
26

27 **Clinical Trial Registration (if any):** Registry name, registration number, web link to
28 study on registry, and data sharing statement
29

30 **Abbreviations:** (list and define abbreviations used in the text; [or] Abbreviations: none)
31

32 **Article Summary**

33 Max 25 words; a brief insight into what the article is about; it should entice the reader to
34 go beyond the table of contents page and read the full article.
35

36 **Contributors' Statement Page**

37

38 **[Each author should only appear once. Use names, not initials. If multiple authors**
39 **have identical contributions, list them in the same sentence; otherwise, list separately.]**

40

41 Dr Smith and Prof Jones conceptualized and designed the study, drafted the initial
42 manuscript, and reviewed and revised the manuscript.

43

44 Dr Noble designed the data collection instruments, collected data, carried out the initial
45 analyses, and reviewed and revised the manuscript.

46

47 Dr Green conceptualized and designed the study, coordinated and supervised data
48 collection, and critically reviewed the manuscript for important intellectual content.

49

50 All authors approved the final manuscript as submitted and agree to be accountable for all
51 aspects of the work.

52

53 **Abstract [250 words max]**
